I am currently a fourth-year student in the Computer Engineering department at Marmara University. I can state that I ranked first in terms of grade point average among third-year students in the computer engineering department. I completed my internships as a java full-stack developer by realizing a project on Spring Boot and React. I'm committed to ongoing self-improvement and skill enhancement through active project involvement.

## 🎓 Education

**Marmara University, Bachelor's Degree in Computer Engineering**

GPA: 3.85 / 4.00

2021 – 2025  
Istanbul, Turkey

## 🏆 Awards

**2023-2024 Academic Year Highest GPA in Marmara University Computer Engineering Department**

## 💼 Professional Experience

**Baykar Makina Sanayi ve Ticaret A.Ş., Software Engineer Intern**

It is aimed to complete a compulsory summer internship in Baykar intranet software department with .Net and React programming languages.

07/2024 – present  
İstanbul, Turkey

**Turkish Aerospace, Mentee**

Women Who Inspire The Sky Mentorship Program, mentees have the opportunity to have one-on-one mentoring meetings with their mentors during the six-month program. And also, mentees have the opportunity a day-long working experience at Turkish Aerospace.

03/2024 – present  
Turkey

**Sigorta Bilgi ve Gözetim Merkezi, Software Engineer Intern**

During my internship at Sigorta Bilgi ve Gözetim Merkezi, I developed a web project using Java, Spring Boot, JavaScript, HTML, CSS, and MySQL. My key contributions included optimizing database queries, enhancing backend validation for security, and implementing comprehensive JUnit tests.

07/2023 – 09/2023  
Istanbul, Turkey

## 📁 Projects

**TEKNOFEST - Exit Way Assist**

Developed within the scope of TEKNOFEST Smart Transportation Competition, EWA (Exit Way Assist) is a mobile-web application that aims to improve the travel experience of individuals using public transportation. The project is at the finalist stage and continues within the scope of 2024 Teknofest competitions.

**Insurance Management System**

Java / Spring Boot / Javascript / AngularJS / HTML / CSS / JUnit Tests / MySQL

**E-Cars - Electric Cars Sales Website**

E-Cars is an e-commerce platform for electric vehicles, allowing users to filter by brand, model, price, and year. It offers secure login, personalized suggestions, and uses Next.js, React, Node.js, MongoDB, Sanity, and Stripe for seamless shopping and payments.

## Skills

---

Java
